There has been keen competition amongst many players in lending and borrowing market and products are evolved as per the customer requirements and benchmarked to offering by the competition.

The Tenure and rate of interest may vary with the customers concerned. This also depends upon the risk profile of the customers. The option for annulling and repayment of the loan is only with the customer requirements and the Company as a lender may not have any such option to call for early repayment except where default exists/Risk Presume and recalling option is exercised. Demand/Call loans offer better flexibility to both customer and lender in handling the credit requirements.

For customer whose requirements for funds are for short term and temporary, but frequenting nature demand loans are better option as it would meet their purpose. For the Company as a lender it would help in meeting the customer requirements, help in deploying surplus funds for short term and also to plan its funds flow in a seamless way. Further in case of any sudden and upward movement in cost of funds, it would offer an exit option for both the borrower and lender.

RBI in its Master Circular – DNBR (PD) CC.No.044/03.10.119/2015-16, Non Banking Financial (Non Deposit Accepting or holding) Companies Prudential Norms (Reserve Bank) Directions 2015 dated July 1, 2015 advised that the Board of Directors of every non banking financial Company granting/intending to grant demand/call Loans shall frame a policy for the Company and implement the same.
